
These guidance notes are designed to help you complete
Form E – Application for a Development Impact Assessment (DIA).

1 Developer details

Please provide your full details to make it easy for us to contact you.

2 Details of main contact

Please provide contact details of any person appointed to coordinate the development (usually an agent or adviser). If you do not have an agent, leave this section blank. We will then contact the developer with all communications.

3 Site details

3.1 Location

You must supply the full postal address and postcode of your site. The Land Registry can provide your postcode. If you don't supply this, your application may be delayed.

Your site may already have a Business Stream reference number relating to a Development Impact Assessment or an application for building water supply. Please provide these to help us speed your application.

3.2 Development details

Because water and waste water demand varies depending on the type of development, we ask for details of the number of units of each type.

4 Planning information

This information helps us understand what stage your development has reached in the planning process. The planning authority will consult Scottish Water on your plans, so the information you supply here will help ensure Scottish Water is fully briefed to respond.

5 Site servicing details

We need to understand the demands your development will make on the existing water and waste water facilities. So it's important that we ask you to supply as much information as possible about site servicing.

6 Details of design consultant

Developers sometimes employ different consultancy firms to design the water and waste water infrastructure of developments. Since the existing infrastructure will automatically be assessed when we receive your application, it is important to provide the design consultant details so that we can include them in our response.

7 Special requirements

Please provide any information about your development that might be relevant to providing a timely connection.

8 Declaration

The form is designed for electronic signature. If you prefer, you may print it off and sign it by hand and post a hard copy. Guidance on electronic signatures is available at www.berr.gov.uk.

If you don't have the means to provide an electronic signature, please note that by submitting the form via email you are instructing Business Stream to progress your application.
