

business stream

A SCOTTISH WATER COMPANY

application for
sewer mains / trunk
sewer / waste water
system and associated
plot(s) connections

Form

D

The water experts

Important

Please note there may have been significant changes to the requirements/process since you last used this form.

We only accept electronic submissions

Please email your application form(s) and supporting documentation to newconnections@business-stream.co.uk

Incomplete applications can't be progressed and failure to submit all required information may negatively impact your project deadlines. We can only progress your application when we have complete supporting documents that meet the regulations set out in the latest edition of Sewers for Scotland.

As laid designs

You will need to provide 'as laid' drawings within 20 business days of the date of your connection(s). We will request this from you once we have had confirmation that your connection has been made.

Also, please note that your sewer connection can only be scheduled AFTER:

- your building water application has been received and payment made
- your method statement and risk assessment have been submitted

Need some help?

You can take the hassle out of your new water and sewer connections by asking Business Stream to handle it. We provide an end-to-end service, managing everything from design through onsite work to final connection – including this application process. Contact us to discuss your needs on 0131 338 3104.

Alternatively, please tick here if you would like us to contact you

Got the right forms?

1. If you need a permanent water connection, you'll need to complete and submit **Form A**.
2. If you need a new water mains / trunk mains / service reservoir, you'll need to complete and submit **Form C**.
3. If there will be a trade effluent discharge from the premises please complete and submit **Form H**.
4. If you only need a temporary, or site accommodation, connection at this stage, you'll need to complete and submit **Form J**.

Other useful sources

You may wish to refer to:

- Current edition of ***Sewers for Scotland*** – this document sets out the design standards Scottish Water will use to assess your sewer connections and sewerage infrastructure (order via www.webookshop.com or **01793 865 012**).
- Our ***Guidance notes for Form D*** – these explain the information required for each section in more detail.
- Our ***New connections: getting started*** document – this explains how we'll process your application.
- UKWIR (United Kingdom Water Industry Research) – this gives guidance for the the selection of water supply pipes to be used in brownfield sites (order via www.webookshop.com or **01793 865 012**).

1 Checklist of supporting data

Incomplete applications can't be progressed and failure to submit all required information may negatively impact your project deadlines. We can only progress your application when we have complete supporting documents that meet the regulations set out in the latest edition of Sewers for Scotland.

- Completed application form
- Site location plan (OS or GIS reference: _____)
- Design proposals (document reference number: _____)
- Longitudinal sections
- Calculations – for foul water sewers, surface water sewers, SUDS measures, pumping stations and rising mains, if applicable
- Local authority planning approval
- Consultation details from Scottish Water's Development Planning section
- Written confirmation of SEPA and Flood Authority comments
- Methods statement*
- Risk assessment*
- Health and safety plan
- Reference number for related building water application (**Form J**) _____ **or**, confirmation that an alternative source of water has been used or no building water is needed (eg dry build)
- Reference number for development impact assessment, if applicable (**Form E**) _____
- Soil investigation report and ground investigation report, if applicable
(required where land contamination exists)
- Roads adoption letter (document reference number _____)
- Mechanical and electrical (M&E) information, if applicable
- Written permission to carry out work on private land, if applicable

* A permit will be issued once the connection is passed.

5 Connection details for infrastructure connection

5.1 Connection details

What type of mains do you propose to install and have adopted by Scottish Water?

	foul water	surface water	combined
number			
diameter of pipework (NB The minimum size is 150mm)			
type of tie in (manhole, saddle, branch, etc)			

5.2 Pumping station

Do you propose a pumping station for adoption? yes no

If yes, please provide a mechanical and electrical specification (M&E).

5.3 Anticipated annual water consumption

What is your anticipated annual water consumption in cubic metres ($m^3 = 1,000$ litres)? m^3

If you intend to use more than $1,500m^3$ please supply development impact assessment (DIA) details or a Scottish Water approval letter.

5.4 Estimated discharge rate in litres / second

	foul water	surface water
mean		
peak		

5.5 Planning reference

Full planning reference number (from your local authority)

Date of reference

Local authority area

5.6 Contaminated land

Are there any contaminated land issues? yes no

If yes, please tell us how your site has been cleared of contamination. Please provide specialist assessment that confirms the choice of pipe material and / or measures taken to protect the public water supply.

Please provide the unique property reference number(s) requested below *

SAA Reference Number:

Where the SAA Reference Number is not available, please provide a valid supporting reason(s) below:

- Property not yet rated
- Missing entry from the SAA
- Agricultural land, buildings and troughs
- Fish farms, fishing, and sporting rights
- Parks, Allotments and Sports Ground
- Property is multi-tenancy
- Infrastructure Project
- Car Park
- Building Water
- Other (please provide details)

UPRN:

Where the UPRN is not available, please provide a valid supporting reason(s) below:

- Missing entry from the OSG
- Not yet issued by planning
- Agricultural including troughs
- Fish farms, fishing, and sporting rights
- Parks, Allotments and Sports Ground
- Property is multi-tenancy
- Infrastructure Project
- Building Water
- Other (please provide details)

* The SAA Reference Number will only be available after a property has been rated and can be obtained from the Scottish Assessors Association website – www.saa.gov.uk. UPRN availability will vary depending on the specific council planning department and should be available at building warrant granted stage and can also be obtained from the One Scotland Gazetteer website - www.onescotlandgazetteer.org.uk .

5.7 Phasing information for installation of sewer connection

Please show the extent of each phase on the site plan.

phase	
total number of plots	
plot numbers	
date works are due to start	
date sewers are being installed	
anticipated date for first occupation	

phase	
total number of plots	
plot numbers	
date works are due to start

7 Premises to be connected

7.1 Occupancy

The premises will be occupied by: Current owner Proposed owner Not yet known

Name

Expected move-in date

7.2 Postal address(es)

For bigger sites with proposed multiple occupancy, please complete Appendix A.

Please provide the postal address of the premises.

Plot/unit number (for new build)

Address

Postcode*

Unique property reference for new builds (if available)**

* Providing us with the site postcode will help avoid any delay in progressing your application.

** You can find unique property reference number on the Scottish Assessors Association website – www.saa.gov.uk

7.3 Type of premises – previous use

Are these premises:

New build Existing

If existing premises, please provide supply point ID (from water bills)

What was the site previously used for?:

Greenfield or agriculture Housing Industry Landfill

Other (please specify)

7.4 Type of premises – future use

Number of commercial units Number of industrial units

Area of site (ha)

Are there new domestic premises related to this development?

yes no

If yes, please note you must make a new connection application to Scottish Water (not Business Stream) for the domestic parts of the property.

Please tick the type of premises:

- warehouse hotel
 factory site accommodation
 agriculture office
 shop care home
 holiday chalets hospital
 school prison
 other (please specify)

Please tell us how many people will be employed in the finished development and/or how many residents will stay there (eg for a hotel):

employees residents

7.5 Planning reference

Full planning reference number (from your local authority)

Date of reference

Local authority area

If full planning permission has not been obtained, please state why.

7.6 Crossing private land

Do you have the permissions needed to cross private land with your drainage?

yes no n/a

7.7 Contaminated land

Are there any contaminated land issues?

yes no

If yes, please tell us how your site has been cleared of contamination. Alternatively provide specialist assessment that confirms the choice of pipe material and / or measures taken. Please submit a soil investigation report or continue on another sheet if necessary.

8 Connection details

8.1 Date and measurements

Anticipated date of sewer connection(s)

Diameter of existing sewer

Depth of existing sewer

8.2 Type of discharge

domestic use (eg office) industrial / trade (eg factory)

If industrial trade, please give details

Please provide the unique property reference number(s) requested below *

SAA Reference Number:

Where the SAA Reference Number is not available, please provide a valid supporting reason(s) below:

- Property not yet rated
- Missing entry from the SAA
- Agricultural land, buildings and troughs
- Fish farms, fishing, and sporting rights
- Parks, Allotments and Sports Ground
- Property is multi-tenancy
- Infrastructure Project
- Car Park
- Building Water
- Other (please provide details)

UPRN:

Where the UPRN is not available, please provide a valid supporting reason(s) below:

- Missing entry from the OSG
- Not yet issued by planning
- Agricultural including troughs
- Fish farms, fishing, and sporting rights
- Parks, Allotments and Sports Ground
- Property is multi-tenancy
- Infrastructure Project
- Building Water
- Other (please provide details)

* The SAA Reference Number will only be available after a property has been rated and can be obtained from the Scottish Assessors Association website – www.saa.gov.uk. UPRN availability will vary depending on the specific council planning department and should be available at building warrant granted stage and can also be obtained from the One Scotland Gazetteer website - www.onescotlandgazetteer.org.uk.

8.3 Trade effluent

Will there be a discharge of trade effluent from the premises? yes no

If yes, please provide your trade effluent consent application reference from Scottish Water, if you have one or complete our form H.

8.4 Type of connection

	foul water	surface water	combined
number of connections			
diameter of connection (NB The minimum size is 150mm)			
type of connection (manhole, saddle, branch, etc)			

8.5 Surface water

How are you dealing with surface water?

- Water course Private soak-away system within plot
 Surface water sewer Combined sewer (only permitted in exceptional circumstances)

8.6 Anticipated annual water consumption

What is your anticipated annual water consumption in cubic metres ($m^3 = 1,000$ litres)?

If you intend to use more than $1,500m^3$ please supply development impact assessment (DIA) details or a Scottish Water approval letter.

8.7 Estimated discharge rate in litres / second

	foul water	surface water
mean		
peak		

9 Associated applications

9.1 Associated water connection

Please provide your water reference number

If no number is available, please explain why.

9.2 Building water

I have applied for building water via Business Stream

Business Stream reference number or date you submitted **Form J**

I have applied for building water via another licensed provider (LP)

Other LP reference number

I have not applied for building water as this is a dry build

I have not applied for building water as I've used another source

Note: By confirming that you have not / will not use Scottish Water's network for building water you also confirm that the water you do use is obtained legally and is fit for purpose.

I have attached evidence of the alternative source of water used

Please provide a summary of the evidence provided below (eg invoices paid for bowsers, chemical toilets etc).
