

Charging Statement for Wholesale Regions in England & Wales

(excluding Southern Water and Yorkshire
Water regions)

2025/26

INTRODUCTION

1. This Charging Statement is made by Scottish Water Business Stream Limited ("Business Stream") in compliance with requirements placed upon it under Section 29 of the Water and Sewerage Undertakers (Exit from Non-household Retail Market) Regulations 2016, and shall come into effect from 1st April 2025 to 31st March 2026.
2. This Charging Statement shall apply to those non-household, eligible premises for which Business Stream is, or is deemed to be, the licensed supplier of water and/or sewerage services and which are located within any region in England or Wales, other than the areas for which either Yorkshire Water or Southern Water is the appointed water and/or sewerage wholesale. Charges for the Yorkshire Water or Southern Water areas can be found here [Water and Waste Water Charges: Scotland & England Rates 2025-2026 - Business Stream](#).

"Eligible premises" are premises other than Household Premises whose occupants have been identified as entitled to participate in the competitive market in England and Wales.

3. This Charging Statement should be read in conjunction with Business Stream's Standard Terms and Conditions for Supplying Water and Waste Water Services, which can be found [Terms and Conditions | Business Stream - Business Stream](#) and which together form the Scheme of Terms and Conditions.
4. For the purposes of Clause 9.1 of Business Stream's Standard Terms and Conditions for Supplying Water and Waste Water Services, payment by Customers of their charges is due no later than 14 calendar days after the date on which Business Stream's bill is issued.
5. The amounts now fixed by Business Stream in respect of the charges provided for in this Charging Statement are those shown in the following pages.
6. All charges stated in this document are presented exclusive of applicable Value Added Tax (VAT). VAT shall be charged, where applicable, in accordance with (a) to (c) below:
 - (a) VAT is chargeable at the standard rate on clean water charges for all Customers whose main business activity falls within divisions 1 to 5 of the Standard Industrial Classifications (SIC) as used by Companies House.
 - (b) Customers whose activities do not fall into one of these 5 divisions are not liable for VAT on their water charges. For those Customers whose business does fall into one of the divisions, VAT is only applicable on clean water charges. Waste water and drainage charges have zero rated VAT liability.
 - (c) All other elective services provided by Business Stream have a standard rated VAT liability. Elective services are any services other than the primary water, waste water and drainage charges that every business is required to pay.
7. If we don't receive your payment on time, we'll send you reminders to pay. If we still don't receive payment, we'll send you a letter stating that we have applied a charge as shown in the table below to cover our costs of recovery. If you still fail to pay your bill, a second recovery charge may be applied to your account and the case will be passed to one of our debt collection partners. We'll write to you to let you know if this happens. If we have to

visit a customer's property to obtain payment, then we may also add an attendance charge to cover our costs of recovery.

Activity	Charge (excluding VAT)
First cost of recovery charge	£82.50
Second cost of recovery charge	£110.00
Attendance charge	£180.00

8. Nothing in this Charging Statement shall affect Business Stream's powers or rights to enter into or be bound by agreements with persons to be charged, whether made before or after the coming into operation of this Statement.

9. Charges for Primary Services

- (a) Primary services comprise:
- (i) the supply of water (apart from the supply of water in bulk);
 - (ii) the provision of both sewerage and sewage disposal services;
 - (iii) the provision of drainage services; and
 - (iv) the conveyance, reception and treatment of trade effluent discharged under a trade effluent consent.
- (b) In accordance with Business Stream's Standard Terms and Conditions, the charges that we will apply within each region for these primary water and waste water services are set out on the following pages, by region, in alphabetical order. These charges comprise the wholesale charge for each region, plus the allowed retail charge for the services provided by Business Stream. The maximum retail charge is set by the industry regulator Ofwat, in the Retail Exit Code [Ofwat Retail Exit Code](#).
- (c) Pursuant to the Retail Exit Code published by Ofwat, customers are allocated into one of three groups. The basis for such allocation is expected consumption volume by the relevant customer in the Tariff Year as determined by the relevant wholesaler.

Customer Group	Expected Consumption during Tariff Year (m ³)
Group 1	0-500m ³
Group 2	500-50,000 m ³
Group 3	Greater than 50,000 m ³

- (d) Charges shall be applied on the basis, and in the manner set out in the Wholesale Charging Statements of the relevant regional water company, which include the policies and any terms and conditions specific to those wholesale regions. Links to the relevant Wholesale Charging Statements are included alongside the charges.

10. Charges for Non-Primary charges

- (a) Business Stream can also provide a range of associated, elective services, including meter installation, testing and replacement; disconnection and reconnection of premises; fire hydrant and standpipe services; trade effluent consent services etc.
- (b) For the most part, these services will be undertaken by the relevant wholesaler. The charges for these services, together with any additional terms and conditions, are as per the relevant Wholesale charging statement, to which there is a link in each section, plus a reasonable arrangement fee which will be advised to the customer in advance.
- (c) “Primary charges” and “non-primary charges” are defined in the Market Operator Services Limited Wholesale-Retail Code Part 1: Objectives, Principles and Definitions.
